

## DOCUMENTARY ORGANIZATION OF CANADA INSURANCE PROGRAM

Starting January 1, 2008, members of the Documentary Organization of Canada (DOC) will have exclusive access to an insurance program designed for Canadian documentary producers.

The program is designed to provide broad insurance coverage at a cost that is much lower than an individual documentary producer could normally obtain when purchasing insurance coverage on his/her own. These pricing discounts have been facilitated by using the bulk buying power of the DOC membership.

Because separate insurance policies will be issued to each producer, standard program parameters can be amended to meet the unique requirements of your specific production.

**The following policies are included in the program:**

### Project Specific Policies:

1. Entertainment Package and Commercial General Liability
2. Commercial General Liability
3. Short Term Equipment and Liability
4. Producers' Errors & Omissions Liability

### Annual Policies:

1. DICE Producers Package
2. Commercial General Liability
